

Trainings and technical seminars in Mexico

We have an extensive training offer in Mexico, aimed at satisfying the needs of any professional, company or organisation.

Our experience in management systems certification allows us to offer companies, organisations and professionals training solutions:

- Creative
- Based on modern methodology
- In small groups

Our training offer is developed in the following areas:

- Quality
- Environment and Sustainability
- Information Technology
- Agri-Food Safety and Quality
- Leadership, Commercial and Management Skills
- Specific Areas (Automotive Management Systems)

Our courses are taught by qualified experts and are recognised by the Secretaría del Trabajo y Previsión Social (STPS), which allows us to collaborate in the development and implementation of training plans for employees together with the Comisiones Mixtas de Capacitación, Adiestramiento y Productividad of companies and organisations, in order to comply with the Ley Federal del Trabajo. (Last reform published DOF 30-11-2012)
