

Trainings and technical seminars in Spain

Applus+ Certification has an extensive training offer, aimed at meeting the needs of any professional, company or organisation.

As one of the certification sector's biggest multinational players, we have extensive technical knowledge that we transfer to our portfolio of training services from a practical and functional point of view.

The Applus+ Certification training portfolio in Spain comprises courses in the following areas:

- Quality
- Environment and Sustainability
- Occupational Health and Safety
- Information Technologies
- Agri-Food Safety and Quality
- Commercial and Management Skills
- Specific Areas (Metrology, Energy Efficiency, CSR)
