

UNE 0060:2018 – Management System for Digitalisation

Closing the digital gap in the industrial sector is critical for organizations of all sizes.

WHO CAN BE CERTIFIED?

UNE0060:2018 sets the basic digitalisation requirements for any industrial company, regardless of its size, that wants to be considered as a 'Digital Industry'. These requirements affect practically all areas of business activity: processes, final product, supplier relations, customer relations, personnel management and organisational culture.

BENEFITS OF UNE 0060:2018

- UNE 0060:2018 certification allows any industrial company, large or small, to improve its processes by digitalising them, thus approaching the standards demanded by Industry 4.0.
- Being considered as 'Digital Industry' puts industrial companies in an optimal position when it comes to aspire to any aid programme for digitalisation that aims to reduce the digital divide.

WHY CERTIFY WITH APPLUS+ CERTIFICATION?

Applus+ Certification is an independent and prestigious entity which aims to help organisations achieve their commitment to continuous improvement.

We analyse the needs of our clients so that our auditors, specialists in each sector of activity, can provide a service that provides maximum value when assessing compliance

in your organisation.

Our teams develop specific certification plans based on our clients' structure, processes and activities.
